

# SAHARA INDUSTRY UBUNTU: REVOLUTIONARY KNOWLEDGE SHARING MOBILE APP LAUNCHED FOR ANDROID AND IOS USERS

**C**omprehensive Industrial Calculator and Educational Platform now available free worldwide.

Sahara Industry has launched **SAHARA INDUSTRY UBUNTU**, a groundbreaking mobile application designed to revolutionize water management knowledge sharing in industrial and technical sectors. The app was launched during the WETEX, Dubai and is now available for free download on both Android and iOS platforms, offering professionals, students, and enthusiasts access to powerful calculation tools and educational resources.

## Comprehensive Calculator Suite:

SAHARA INDUSTRY UBUNTU features eight specialized calculator tools designed to address critical industrial needs:

- **Vessel Volume Calculator:** Precise volumetric calculations for industrial vessels
- **Chemical Dosage Calculator:** Accurate chemical dosing for water treatment applications
- **Swimming Pool Volume Calculator:** Complete pool sizing and chemical balance calculations
- **Softener Calculation Tool:** Water softening system optimization
- **Filter Media Calculator:** Filtration system design and media requirements
- **Genuinity Scanner:** Authentication tool specifically for Alfa Aerosol and droplet products
- **Super Charge Resin Calculator:** Ion exchange resin calculations and optimization
- **Vessel Flow Rate Calculator:** Hydraulic flow calculations for various vessel configurations

## Universal Conversion Tools:

The app includes comprehensive conversion utilities covering:

- Conductivity measurements
- Energy conversions
- Length and dimensional calculations
- Mass and weight conversions
- Power calculations
- Speed conversions
- Volume measurements
- Pressure conversions

## Educational Resources:

Beyond calculations, SAHARA INDUSTRY UBUNTU serves as a comprehensive learning platform featuring:

- Educational videos covering industrial processes and applications
- Technical blogs and articles
- Best practice guides
- Industry insights and updates

## Key Features:

- **Free Access:** Complete functionality available at no cost to all users
- **Cross-Platform Compatibility:** Optimized for both Android and

iOS devices

- **User-Friendly Interface:** Intuitive design for professionals and students alike
- **Regular Updates:** Continuous addition of new tools and features
- **Offline Capability:** Core functions available without internet connectivity

## Future Expansion:

The development team has committed to regular updates with additional calculator tools, conversion utilities, and educational content based on user feedback and industry demands.

## About SAHARA INDUSTRY UBUNTU:

SAHARA INDUSTRY UBUNTU represents our commitment to democratizing technical knowledge and tools. By providing free access to professional-grade calculators and educational resources, we aim to support industry professionals, academic institutions, and students worldwide in their academic and technical endeavours.

## About Sahara Industry:

Sahara Industry is one of the leading water treatment solution providers in India. Having been in the water industry for over two decades, it has contributed immensely by making water safe for drinking, industrial and institutional purposes. It has executed water and wastewater projects in the length and breadth of India as well as in several other countries. The ISO 9001:2015 certified company; it has employed technologically advanced machineries and manufacturing solutions combined with professional engineers and well-qualified teams to achieve the rare feat of being an indigenously creator of advanced water and wastewater treatment solutions matching with world standards. The company's commitment to excellence contributes to addressing water scarcity and pollution challenges in India and beyond.
